EDUCATION

Amal Jyothi College of Engineering Autonomous

Bachelor of Technology in Information Technology

Kottayam, India

July 2022 – June 2026

EXPERIENCE

Full-Stack Developer Intern

PeopleMaketh

July 2025 – Present

Bengaluru, India

- Engineered an AI-assisted code analysis tool, achieving a 60% improvement in code quality checks.
- Developed scalable backend APIs and databases managing 5K+ daily requests.
- Spearheaded planning of future penetration testing tools and dynamic analysis features.
- Streamlined CI/CD pipelines using GitHub Actions, improving deployment efficiency by 40%.

Software Solutions Intern

Lylux Lighting Equipment Trading LLC

July 2025 – Present

Dubai, UAE

- Built client-facing software for product customization, reducing manual work by 60%.
- Managed databases and optimized backend services for improved performance and scalability.
- Completed development tasks and tackled real-world problems as a remote intern.

PROJECTS

CareerWise | *Python, FastAPI, React, OpenAI API*

May 2025 – Present

- Designed a web application leveraging LLMs to deliver tailored career guidance for 100+ users.
- Delivered targeted insights and content to 3+ user groups, improving retention through tailored experiences.
- Collected feedback via surveys, achieving over 90% positive responses on project usefulness.

Lead Management System | *Python, FastAPI, React*

April 2025 – June 2025

- Engineered a full-stack application to streamline lead management and sales tracking, reducing manual effort by 60%.
- Created a system with role-based access, lead allocation, and follow-up tracking.
- Implemented backend systems using FastAPI and MongoDB to support performance and data consistency.
- Developed a cross-device responsive interface for smooth user experience.

E&S Decorations Website | *Python, FastAPI, React*

January 2025 – June 2025

- Built a responsive, SEO-optimized website, boosting E&S Decorations's inquiries by 80%.
- Implemented a no-code dashboard for seamless content edits, reducing dev workload by 10 hours/month.
- Implemented performance and SEO improvements, enhancing overall site efficiency and reach.

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, PHP, JavaScript, TypeScript

Frameworks: HTML, CSS, React, React Native, Node.js, Flutter, Flask, Django, FastAPI, Tailwind

Databases: MySQL, MongoDB, PostgreSQL, Supabase, NeonDB

Design & Tools: Git, GitHub Actions, Postman, Figma, Adobe Suite, n8n, Canva, Docker, Vercel, Render, Notion

CERTIFICATIONS

Coursera – Google: Foundations of Cybersecurity

IIT Kanpur –Self Driving Electric Vehicle

NIT – Cryptocurrency and Blockchain

ADDITIONAL INFORMATION

Program Management: Project Coordination, Stakeholder Communication, Agile Model, Risk Management, Team Collaboration, Quality Assurance, Change Management

Achievements: Smart India Hackathon Runner-Up, Best University Design Project for “E&S Decorations”, YIP District Winner
